REQUISITION BY STOCK NUMBER

Stock numbers are constructed as follows:
A. The first 5 characters of the stock number are the map series number. When the number is less than 5 characters, the letter X is used in lieu of the missing characters.

B. The remaining characters of the stock number are the map sheet number. The SHEET NUMBERING SCHEME is used to identify the sheet. Exceptions: (1) The words "ALL AVAILABLE SHEETS" are used in lieu of sheet number when the number is intended to identify all available sheets of map series. (2) "INDEX" is used in lieu of sheet number to identify the series index.
