EDITION NUMBERS

Map edition numbers are shown on the reverse of this index.

REQUISITION MAPS BY STOCK NUMBER

Stock numbers are constructed as follows:
A. The first 5 characters consist of the map series number. When the series number is less than 5 characters, the fifth character is the letter X.

B. The remaining characters of the stock number are the map sheet number. (Roman numerals that are a part of the map sheet number will be converted to Arabic numerals when composing the stock number.)

EXCEPTIONS: (1) The words "All Sheets" are used in lieu of sheet number if stock number is intended to identify all available sheets of map series. (2) The word "Index" is used in lieu of sheet number to identify the series index.
